Summary

Detail-oriented Web Developer with hands-on experience building GIS Tax Mapping web applications for government agencies. Skilled in creating RESTful APIs and responsive web applications using PERN Stack (PostgreSQL, Express.js, React.js, Node.js) and Leaflet.js for interactive geospatial visualization.

Technical Skills / Tools

Frontend

- HTML
- CSS
- JavaScript
- TypeScript
- React.js
- Next.js
- JQuery
- Leaflet.js
- Tailwind CSS
- Bootstrap

Backend

- Node.js
- Express.js
- PostgreSQL
- MongoDB
- Python / FastAPI
- EJS
- SQLAlchemy

Other Tools

- Git
- GitHub
- Duda
- Trello
- Asana
- Salesloft
- Google Analytics
- Google Search Console
- Google Docs
- Microsoft Office

Professional Experience

BaseUp Labs

GIS and Frontend Developer (March 2026 - June 2026)

- Built and refined responsive frontend views for a GIS and data-heavy application.
- Supported integration points for the Python backend using FastAPI with SQLAlchemy.
- Worked with PostgreSQL-backed data used by mapping and review workflows.

8Nexity Technology Corporation

Full-Stack Developer (August 2023 - October 2025)

- Developed an interactive and user-friendly frontend interface for a Geographic Information System (GIS) Tax Mapping web application, using React and Leaflet.js for component-based UI development.
- Developed an interactive and user-friendly frontend interface for a Delinquency Tax Notice web application, using React for component-based UI development.
- Designed and implemented RESTful APIs with Node.js and Express.js to efficiently handle geographic data. Integrated PostGIS for spatial database management, ensuring data integrity and optimizing query performance.

NovAlly Leaps and Bounds Services (December 2017 - Feb. 2023)

Campaign Planner Associate (10 Months)

- Handles Daily updates to the Engage Master Sheet and the Convert Master Sheet.
- Import/Upload leads to Salesloft & Integrate.
- Sets up campaign folders, templates, and Asana projects for Engage & Convert campaigns.
- Sets up Engage Campaigns and Engage Converter (Salesloft).

Quality Control Analyst (4 years 6 months)

- Responsible for analyzing the quality of the leads generated from our call center associates.
- Monitor the quality of leads and email validity to assess associates' performance, technical accuracy, conformity to the client's requirements, and company guidelines and policies.
- Assist in developing, creating, and implementing call center quality processes and procedures, as well as ensuring leads are submitted on time as needed for the client's target, and to enhance the overall company's client services.

Callbox Sales and Marketing Solution

Search Engine Optimization Specialist (March 2015 - July 2016)

- Develop optimization strategies that increase the company's search engine results rankings.
- Monitor daily performance metrics in Google Analytics and Google Webmaster Tools.
- Research SEO keywords to use throughout the company's website and marketing materials.
- Update the website, including blog posts and page description content in WordPress.
- Update content and website links for maximum optimization and search engine rankings.
- Building Links
- Email Handling, Email Marketing, and Social Media Marketing
- Lead Generation

Education

AMA Computer College

Bachelor of Science in Information Technology (BSIT)
